

Experiences

Stubbington residential trip
Alice in Wonderland tea party
- where children will be able to share their work with parents

Computing

In computing this half term, children will be experimenting and creating concept maps on Purple Mash. They will have an understanding of the uses of a concept map and to work collaboratively whilst making one.

Physical Education

This half term children will be taking part in understanding and learning a dance routine based on the famous 'Hakka' which is performed within rugby. The children will learn the different moves and will be working together to create their own routines!

English

This half term is based around the text Alice in Wonderland. The children's final outcomes are going to be writing a letter from the perspective of Alice to the Red Queen persuading her to change her cruel ways!

Personal Development

For PDL, we will be discussing online safety. Children will then be creating a leaflet with the purpose of informing others on the rules of keeping safe online, sources of information and the effects of negative relationships online.

Religious Education

In RE, children will be exploring the concept of stewardship and what this concept means to Muslims and how they look after the world because of this.

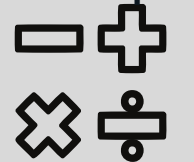

Y5 Curriculum Overview

Spring 1

Maths

The children will be continuing on from their learning last half term of short division. Year 5 will then move onto developing their learning around area and scaling. Looking at how to calculate the perimeter and area of different shapes.

Art

During art this half term children will be creating Alice in Wonderland themed drawings. These will be used on display at the Alice in Wonderland tea party which parents will be invited to! These drawings will be based on Walt Disney and John Tenniel original work!

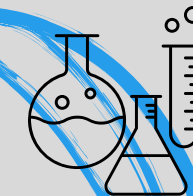

Geography

In Geography this half term, the children will be answering the key statement: 'Las Vegas is a world away from our local area.' The children will be able to answer this question from their learning of questioning, sources and different research about Las Vegas!

Science

This half term in science, the children will be continuing their unit of evolution, where they will be making fossils and becoming palaeontologists! They will then be starting their new unit of forces.

French

By the end of this unit pupils will have the knowledge and skills necessary to perform a short role-play in a French tea room. Pupils will be able to say and write what they are ordering to eat and/or drink using a wider range of vocabulary alongside very useful transactional language.
