

Experiences

History - Visit to Portsmouth & Southsea

Residential - Runways End

Computing

In computing, we will be focusing on quizzing where children will be required to answer, modify and create quizzes. In addition, children will also need to cross-reference information to databases to help them design a quiz of interest.

Physical Education

In P.E, the focus of this half term is health & fitness. Children will be exploring a range of circuits focusing on a variety of body parts. They will also take part in the Multi Stage Fitness test as a way of tracking their fitness across the half-term.

English

We will use a video to engage the children in their first piece of writing. The film -Alma- will allow them to show skills of: tension, suspense and appropriate form.

Personal Development

This half term, the children will be learning about caring and respectful relationships. They will be discussing who to trust and will explore stereotypes in society and how this can impact people's views of others and themselves

Religious Education

In RE, children will be exploring Christianity. They will look at the theme of sacrifice and discuss how this may be shown daily no matter your religion. Once this concept is understood, it will then be linked to Jesus and how some Christians believe he sacrificed himself for the human race.

Year 6 Curriculum Overview Spring 1

Maths

In maths, children will be exploring Place Value with Measurement and exploring the role of factors, multiples, prime numbers and composite numbers. They will also continue to work on their arithmetic helping improve efficiency.

Art

In our Art we will be focusing on collage and the work of Bobbi Baugh. This unit will link to printing and creating a variety of patterns to use in collages of their own.

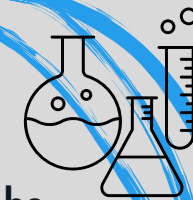

History

We will be continuing our learning about World War 2: focusing on how WW2 is still evident in our locality. We will visit Portsmouth at the end of January to observe these features first-hand.

Science

In Science, we will be learning all about electricity. Children will learn how to create a variety of circuits and represent these using symbols within diagrams.

French

This half term, the children will be learning about animals kept as pets and being able to respond to questions about pets they may have.
